To Whom It May Concern

My wife and I are very pleased with the results of fitting the Wellan Water purification ring, it has undoubtedly cleaned lime scale from all of our sinks, taps, shower heads, shower glass and toilet bowls. The water feels softer and tastes much better as well. We have also cut down on the amount of detergent needed to clean these areas.

Most of all, I like the idea that you fit and forget, not having to change filters or do any maintenance is a blessing and a cost saving.

Please do not hesitate to make contact with the undersigned should you require any further clarification.

Thank you Wellan !!

A handwritten signature in dark ink, appearing to read 'P. Boot', with a stylized flourish at the end.
