

**Experience report from email dated September 4, 2023 from chiropractor Manfred Reichart,
Golden Rose Compound, El Kawther - Hurgada - Egypt**

Dear Mr. Spitzenberg,

We would like to take this opportunity to thank you very much for the very professional and expert support and installation of our new water system!

We have been living in Hurghada, Egypt, for over 6 months and many people know the big problems we Europeans have with tap water.

Mr. Spitzenberg was at our house and looked at everything calmly and then suggested various options, explained to us simply and understandably the advantages and disadvantages of other systems, and what happens to the water through his filter systems and how we can now benefit from them overall - Respect!

We chose the Jungbrunnen 66 system and also the Wellan 2000 ring system that Mr. Spitzenberg installed in advance, and you could see the difference in the tank immediately, the water was clear again after a few tank fillings and no longer brown, that too Rust in the tank was removed, after less than 3 weeks Mr. Spitzenberg had the Jungbrunnen 66 system at hand and installed it very quickly and professionally. We have been using the water for 4 weeks now and can only recommend Mr. Spitzenberg (which we have done many times , to friends and also to our patients).

Thank you very much, Mr. Spitzenberg and the company Best Water and Wellan Worldwide

Best regards

Reichart office
